Re: Application of Groom Creek Water Users Association for approval of Financing and Rate changes.

Docket No. W-01865A-047-0385 and W-01865A-07-0384

As a member of the Groom Creek Water Users Association, this letter is to notify you that I (we) are in favor of the Board of Directors plan to increase the water base rate to \$42.00 per month. We are not in favor of the ACC Staff's proposed rate increase of \$22.50 per month. Although no one likes to see utility rate increases, the \$42.00 base rate is a much more economical plan to accomplish the required infrastructure improvements than the Staff plan and saves us as members over \$275,000.00 with a \$500,000.00 credit line as opposed to a 20 year fixed rate loan. Our Board of Directors plan is the most flexible and we are requesting their plan be approved.

Additional Comments:

We are not in favor of 42.00 per mo. That is too much. We only use water 5 months or less a year and pay for 12 months. We may have to sell our cabin if it goes that high. We are not wealthy.

We won't sign this because we don't want any repercussions. We too, would like to save the interest, but not at the proposed base rate. \$22.50 seems appropriate, We have been so worried about the proposed hike!

Thank you,

Groom Creek resident

Having owned and operated a water company (sold in 2000) for twenty-five years, I understand completely the need for a rate increase. However, I cannot support the size of this request and question the idea of a "line of Credit" for longterm financing of major system improvements. Long term improvements should be matched with long term financing. I completely support a large rate increase, but not of the size requested. I do support the Board in their efforts, but feel they need advice (perhaps from WIFA) in securing proper financing. GJG

As a member of the Groom Creek Water Users Association, this letter is to notify you that I am not in favor of the Board of Directors plan to increase the water base rate to \$42.00 per month. I am in favor of the ACC staffs proposed rate increase of \$22.50 per month.

I believe that to borrow the same amount and have a fixed rate loan of 20 years is the more sensible thing to do for

the ownership of properties continue to change hands constantly in the Groom Creek area and this would spread the share of the cost among the old and new residents. While still allowing for the repairs to be accomplished.

The Board of Directors have sent a form letter to their liking to the membership thinking all are in favor of their proposed increase, I do believe yes the system is in need of repair, but I also believe the cost could be spread more evenly. I would think that first they would have sent a letter asking opinions of the membership, yes they do have the meetings, but because it is also an area of second homes not all the membership is able to attend these meetings, but when asked my opinion such as this form letter I will reply.

attached is the form letter they have sent.

Docket No. W-01865A-047-0385 and W-01865A-07-0384

As a member of the Groom Creek Water Users Association, this letter is to notify you that I (we) are in favor of the Board of Directors plan to increase the water base rate to \$42.00 per month. We are not in favor of the ACC Staff's proposed rate increase of \$22.50 per month. Although no one likes to see utility rate increases, the \$42.00 base rate is a much more economical plan to accomplish the required infrastructure improvements than the Staff plan and saves us as members over \$275,000.00 with a \$500,000.00 credit line as opposed to a 20 year fixed rate loan. Our Board of Directors plan is the most flexible and we are requesting their plan be approved.

RE: GROOM CREEK WATER USERS ASSOCIATION

Dear Mr. Bartylla:

Your letter regarding the Groom Creek Water Users Association ("Groom Creek") rate case will be placed on file with the Docket Control Center of the Arizona Corporation Commission ("Commission") to be made part of the record. The Commission will consider your comments before a decision is rendered in the Groom Creek application.

The concerns raised in letters received from customers will assist the Commission in the investigation and review of the rate application. The Commission's independent analysis of the utility and its rate request attempts to balance the interest of the utility and its customers.

Commission Staff is very sensitive to the burden that high utility rates can place on the consumer, and though constitutionally required to allow a fair return to the utility, does everything within its authority to protect the consumer.

Staff appreciates your comments and the interest taken on the proposed rate increase. If you should have any questions relating to this issue, please call me toll free at (800) 222-7000.

Sincerely,

Trish Meeter
